REACH STATEMENT

The European Union (EEC) has adopted regulation number: 1907/2006, also known as the "Registration, Evaluation and Authorisation of Chemicals" "REACH" Regulation which became effective on the 1st June 2007.

Westfield has contacted all of its suppliers and to the best of our knowledge and belief none of the articles that we sell intentionally contain any of the 155 substances of Very High Concern (SVHC'S) currently on the candidate list in concentrations of >0.1% by weight. Last updated 16th June 2014.

A list of the substances can be found at: <http://echa.europa.eu/web/guest/candidate-list-table>

Registration is only required for companies that either produce or import into the EU any substance in volumes that exceed one tonne per substance. Westfield does not exceed this import amount, and therefore will not be required to register.

If you have any specific concerns regarding the composition of any particular part(s) or item(s), please do not hesitate to contact me and I will forward your concerns to the relevant manufacturer(s) for their response.

Westfield is ISO9001:2008 certified by NQA and has 100% traceability of all items supplied since 1995.

Regards

Steve Chappell

Quality Manager For and On Behalf of Westfield Distribution Ltd

The above statement is accurate to the best of our knowledge and belief.
